

# PHP developer

## About us

We are a digital agency, digital experts. Our everyday life is caring and building awareness for our client's brands in a digital landscape. We create meaningful connections between brands and people. Our Kosovo team consists of 4 young and energetic php developers, and we are looking into expanding our team.

## Our Product

The product you will be working on is an online database that helps with the planning of promotion campaigns in retail stores. The tool helps the customer to plan budgets (on base of brands and products), plan advertising campaigns and freelancer needed in the campaigns.

## What we are looking for

A full time employee (0900-1800) located in Ferizaj with the following skillset

- php,
- laravel,
- html, css,
- javascript,
- mysql

He/She will be working as a part of a team with other experienced and senior developers and will communicate in German or English

## What we offer

- a competitive salary,
- flexible schedule,
- health Insurance,
- 20 day a year of paid leave,
- parental leave,
- free coffee,
- pleasant, innovation-driven, professional work environment and great colleagues who help each other,
- interesting projects for German and international customers (few of our customers: braun, dm, omnicare, l'oreal, oral b, duracell, giz etc)
